Preface

The twenty-sixth edition of *Library of Congress Subject Headings (LCSH 26)* contains subject headings created by catalogers and used in cataloging at the Library of Congress since 1898.

This edition contains headings established through December 2002. Responsibility for the maintenance of the data base is held by the staff of the Subject Headings Editorial Team under the direction of the editor, Ronald A. Goudreau. Barbara Barnes, Bonnie Briscoe, and Elizabeth Rinn edited headings in the data base.

The Cataloging Distribution Service (CDS) produced *LCSH* from records in the MARC21 subject authorities format. Authority and reference entries were generated from the MARC21 records, the entries sorted, and the data formatted. The resulting data file was used by a commercial printer for final processing.

Sacred monologues with music
Here are entered collections of sacred musical works in which spoken language is an integral part. Individual works and collections for a specific medium of performance are entered under the heading followed by the medium. The medium "instrumental ensemble" stands for two or more different solo instruments; "voice" for solo voice of high, low, or medium range; and "chorus" for men's, mixed, women's, or children's voices in two or more parts. Collections of secular, or sacred and secular, musical works in which spoken language is an integral part are entered under Monologues with music.

Satisfaction for sin
(BT263-BT265.2)
Here are entered works on the theory of Atonement which has been prominent in Christian theology since Anselm, and which holds that Christ's death was a sufficient vicarious reparation for the sins of the world.

Science fiction *(Not Subd Geog)*
[P96.S34 (Mass media)]
[PN3433-PN3433.8 (History)]
[PN6120.95.S33 (Collections of fiction)]
Here are entered collections and discussions of science fiction as realized in various media, including films, television, comic strips, etc., as well as works limited to fiction in the literary sense. Works dealing with science fiction as realized in a specific nonliterary medium are entered under the specific heading, e.g. Science fiction films.

Shipping *(May Subd Geog)*
[HE561-HE971]
Here are entered general works on the transportation of persons or goods by water, as well as on the vessels used in this activity. Works confined to inland or coastal water transportation, in general, are entered under the headings Inland water transportation or Coastwise shipping. Works on water transportation on individual lakes, rivers, etc. are entered under Shipping subdivided by the name of the lake, river, etc. Works on ocean-going merchant fleets are entered under the heading Merchant marine.
Works on shipping in the sense of the dispatch of goods by any means of transportation are entered under the heading Shipment of goods when relating to the activities of the shipper, or Freight and freightage when relating to those of the carrier.
